

Veltrixora Home Appliance Service Policy

Company: Veltrixora Consumer Labs Pvt. Ltd.
Policy ID: VCL-HAP-SRV-2026-03
Effective Date: 01 May 2026
Document Type: Synthetic warranty and claim policy for RAG testing

This policy describes service support, installation conditions, warranty coverage, and escalation rules for home appliances.

Important demo notice: This document is fully fictional and created only for ClaimMate AI testing. It is not a real company policy, warranty promise, consumer advice, or legal document.

1. Product Categories Covered

This policy applies to Veltrixora air conditioners, washing machines, refrigerators, microwave ovens, and water purifiers.

Standard appliance warranty is 12 months from invoice date unless a component-specific extended warranty is listed in the product certificate.

2. Authorized Installation Requirement

For air conditioners, water purifiers, and selected washing machines, warranty may require installation by an authorized technician.

Damage caused by self-installation, incorrect voltage connection, missing stabilizer where required, or unauthorized relocation may be excluded from warranty.

3. Service Visit and Diagnosis

A service request number is generated after complaint registration. The customer must keep the service request number for follow-up and escalation.

The technician may require invoice copy, serial number, installation report, product photos, and problem description before completing diagnosis.

4. Escalation Rules

If the first technician visit is not completed within 5 working days from the complaint date, the customer may request priority scheduling.

If the repair is unresolved beyond 10 working days after diagnosis, the customer may request escalation by sharing service request number and previous communication proof.

5. Exclusions

Warranty excludes physical damage, rodent damage, voltage fluctuation damage, rust due to external environment, damage from incorrect installation, consumable filters, and accessories not listed in the warranty certificate.

Routine cleaning, filter replacement, and preventive maintenance are not free warranty repairs unless explicitly included in a service plan.

6. Required Documents

Document	When Required
----------	---------------

Invoice copy	Mandatory for warranty service.
Serial number	Mandatory for product verification.
Installation report	Required for installation-dependent appliances.
Service request number	Required for follow-up and escalation.
Communication proof	Required for delay escalation.
