

Veltrixora Mobile Return and Refund Policy

Company: Veltrixora Consumer Labs Pvt. Ltd.
Policy ID: VCL-MOB-RRF-2026-02
Effective Date: 01 May 2026
Document Type: Synthetic warranty and claim policy for RAG testing

This policy describes return, replacement, refund, DOA, and warranty claim conditions for Veltrixora mobile phones.

Important demo notice: This document is fully fictional and created only for ClaimMate AI testing. It is not a real company policy, warranty promise, consumer advice, or legal document.

1. Return Window

Mobile phones can be returned or replaced within 7 calendar days from delivery only if the product is defective on arrival, wrong item is delivered, or accessory box contents are missing.

Return requests after 7 calendar days are normally handled as warranty service requests instead of return requests.

2. Dead on Arrival Conditions

A mobile phone may be considered Dead on Arrival if it does not power on, does not charge, has no display output, or fails initial activation within 48 hours of delivery.

For DOA review, the customer must provide delivery proof, invoice, unboxing photo or video if available, IMEI number, and product condition photos.

3. Refund Rules

Refund is considered only when replacement is not available and the defect is verified under the policy conditions.

Refund is not applicable for buyer remorse, color preference change, minor packaging dents without product defect, or damage caused after delivery.

4. Warranty Exclusions

Cracked display, liquid damage, tampering, unauthorized repair, rooted or modified system software, physical damage, and misuse are excluded from warranty support.

Battery issues may require inspection. Swelling, puncture marks, burn marks, or liquid indicators may lead to claim rejection.

5. Required Documents

Document	Purpose
Invoice copy	Purchase proof and warranty date verification.
IMEI number	Device identity verification.
Delivery proof	Return and DOA verification.
Product photos/video	Condition verification.
Service report	Warranty inspection and defect confirmation.

6. Claim Process

A claim request must include product category, purchase date, invoice copy, product serial number or IMEI where applicable, and a short description of the issue.

The claim team may request photos, videos, diagnostic screenshots, service request number, or inspection report depending on the issue type.

Approval is subject to policy conditions and inspection outcome. This document does not guarantee approval for every claim.
